Area F – Land additions and dispositions in the year

Total cost of all land additions in the year	**9923**	
Total proceeds from all land dispositions in the year	**9924**	

Note: You cannot claim capital cost allowance on land. For more information, see Chapter 3 of Guide T4002.

Area G – Agreement between associated eligible persons or partnerships (EPOPs)

Are you associated in the fiscal period with one or more EPOPs that you have entered into an agreement with under subsection 1104(3.3) of the Regulations? . . . . . Yes ☐ No ☐

If you answered **yes**, fill in the table below.

Enter the percentage assigned to each associated EPOP (including your business) as determined in the agreement.

This percentage will be used to allocate the immediate expensing limit. The total of all percentages assigned under the agreement should not be more than 100%. If the total is more than 100%, then the associated group has an immediate expensing limit of zero. For more information about the immediate expensing limit, see Guide T4002.

1 Name of the EPOP	2 Identification number*	3 Percentage assigned under the agreement
Total of percentage assigned: Total of column 3 ▶		

Immediate expensing limit allocated to your business: Multiply $1.5 million by the percentage assigned to your business in column 3** iii

* The identification number is the EPOP's social insurance number, business number, or partnership account number.

** If the total of column 3 is more than 100%, enter "0."

Endnotes

[1] Columns 4, 6, 8, and 9 apply only to designated immediate expensing properties (DIEPs). See subsection 1104(3.1) of the Income Tax Regulations for definitions. A DIEP is a property that you acquired after December 31, 2021, and that became available for use before 2025. For more information, see Guide T4002.

[2] The proceeds of disposition of a zero-emission passenger vehicle (ZEPV) that has been included in Class 54, or a passenger vehicle bought after April 18, 2021, that has been included in Class 10.1, and whose cost is more than the prescribed amount will be adjusted based on a factor equal to its prescribed amount as a proportion of the actual cost of the vehicle. For dispositions after July 29, 2019, you will have to adjust the actual cost of the vehicle for any payments or repayments of government assistance that you may have received or repaid for the vehicle. If the passenger vehicle in Class 10.1 is not designated for immediate expensing treatment, this special rule does not apply. For more information on proceeds of disposition and the prescribed amounts, read "Class 10.1 (30%)" and "Class 54 (30%)" in Guide T4002.

[3] If you have a negative amount in column 7, add it to income as a recapture in Part 3 on line 9600. If no property is left in the class and there is a positive amount in this column, deduct the amount from income as a terminal loss in Part 4 on line 9270. Recapture and terminal loss do not apply to a Class 10.1 property unless it is a DIEP. For more information, read Chapter 4 of Guide T4002.

[4] The amount you enter in column 8 must not be more than the amount from column 7. If the amount from column 7 is negative, enter "0."

[5] The immediate expensing applies to DIEPs included in column 8. The total immediate expensing amount for the tax year (total of column 9) is limited to the lesser of:

- the immediate expensing limit, which is equal to one of the following, whichever is applicable:
  - − $1.5 million, if you are not associated with any other eligible person or partnership (EPOP) in the tax year
  - − amount iii of Area G, if you are associated with one or more EPOPs in the tax year
  - − zero, if you are associated with one or more EPOPs and an agreement that assigns a percentage to one or more of the associated EPOPs was not filed with the minister in a prescribed form
  - − any amount allocated by the minister under subsection 1104(3.4) of the Regulations
- the UCC of DIEPs in column 8
- the amount of income, if any, earned from the source of income that is a business (before any CCA deductions) in which the relevant DIEP is used for the tax year

For more information, see Guide T4002.

Endnotes

[6] Columns 11, 12, 14, 15, 16, and 17 apply only to accelerated investment incentive properties (AIIPs) (see Guide T4002 for the definition), zero-emission vehicles (ZEVs), ZEPVs, and other eligible zero-emission automotive equipment and vehicles that become available for use in the year. Under proposed changes, these columns may also apply to reaccelerated investment incentive properties (RIIPs) (see Guide T4002 for the proposed definition). In this chart, ZEVs represent zero-emission vehicles, ZEPVs, and other eligible zero-emission automotive equipment and vehicles. An AIIP is a property (other than a ZEV) that you acquired after November 20, 2018, (and, under proposed changes, before 2025) and that became available for use before 2028. A ZEV is a motor vehicle included in Class 54 or 55 that you acquired after March 18, 2019, and that became available for use before 2028 (or, under proposed changes, before 2034), or eligible zero-emission automotive equipment and vehicles included in Class 56 acquired after March 1, 2020, and that became available for use before 2028 (or, under proposed changes, before 2034). Under proposed changes, a RIIP is a property (other than a ZEV) that you acquired after 2024, and that became available for use before 2034. For more information, see Guide T4002.

[7] For ZEVs (under proposed changes, acquired before 2025) and AIIPs that became available for use in 2025, the relevant factors are 1 1/2 (Classes 43.1, 54, and 56), 7/8 (Class 55), and 1/2 (Classes 43.2 and 53). Under proposed changes, for properties included in Class 44, 46, or 50 acquired after April 15, 2024, and that became available for use in 2025, the relevant factors are 3 (Class 44), 2 1/3 (Class 46), and 9/11 (Class 50). The factor is 0 for any remaining AIIPs not listed in this note.

[8] Under proposed changes, for ZEVs acquired after 2024 and RIIPs that became available for use in 2025, the relevant factors are 3 (Class 44), 2 1/3 (Classes 43.1, 46, 54, and 56), 1 1/2 (Class 55), 1 (Class 53), 9/11 (Class 50), and 0 (Classes 12, 13, 14, 15, and 59). The factor is 1/2 for any remaining RIIPs not listed in this note.

[9] If, in the year, you disposed of a property that you used for both personal and business use, and your business use of that property changed from year to year, you must subtract any remaining personal part of this property's cost from the UCC at the end of the year. For more information, see "Special situations" in Chapter 4 of Guide T4002.

[10] For information on CCA for "Part 7 – Calculating business-use-of-home expenses," see "Special situations" in Chapter 4 of Guide T4002. To help you calculate the CCA, see the calculation charts in Areas B to G.

[11] For leases entered into in 2024, it's amount 23 or ($43,529 plus GST and PST, or $43,529 plus HST), whichever is more. For leases entered into in 2023, it's amount 23 or ($42,353 plus GST and PST, or $42,353 plus HST), whichever is more. For leases entered into in 2022, it's amount 23 or ($40,000 plus GST and PST, or $40,000 plus HST), whichever is more. For leases entered into before 2022, it's amount 23 or ($35,294 plus GST and PST, or $35,294 plus HST), whichever is more.

[12] For leases entered into in 2024, amount 25 is equal to [($1,050 plus GST and PST, or $1,050 plus HST) multiplied by amount 22], divided by 30.
For leases entered into in 2023, amount 25 is equal to [($950 plus GST and PST, or $950 plus HST) multiplied by amount 22], divided by 30.
For leases entered into in 2022, amount 25 is equal to [($900 plus GST and PST, or $900 plus HST) multiplied by amount 22], divided by 30.
For leases entered into before 2022, amount 25 is equal to [($800 plus GST and PST, or $800 plus HST) multiplied by amount 22], divided by 30.

[13] For leases entered into in 2024, amount 27 is equal to [($37,000 plus GST and PST, or $37,000 plus HST) multiplied by amount 20], divided by amount 24.
For leases entered into in 2023, amount 27 is equal to [($36,000 plus GST and PST, or $36,000 plus HST) multiplied by amount 20], divided by amount 24.
For leases entered into in 2022, amount 27 is equal to [($34,000 plus GST and PST, or $34,000 plus HST) multiplied by amount 20], divided by amount 24.
For leases entered into before 2022, amount 27 is equal to [($30,000 plus GST and PST, or $30,000 plus HST) multiplied by amount 20], divided by amount 24.
