Alternative Minimum Tax

Use this form to calculate your federal tax payable under alternative minimum tax (AMT) for 2025. If you are completing a return for a trust, use T3 Schedule 12, Minimum Tax.

Complete parts 1, 2, and 8 if you do **not** have to pay minimum tax in 2025 and you are applying a minimum tax carryover from previous years against your tax payable for 2025.

Alternative minimum tax does **not** apply to a person who died in 2025 or to returns filed under subsections 70(2) or 150(4), or under paragraphs 104(23)(d) or 128(2)(e) of the Income Tax Act (ITA).

If you had business income in 2025 from a province or territory other than the one you lived in at the end of the year, or from another country, you may also have to complete and attach a copy of Form T2203, Provincial and Territorial Taxes for Multiple Jurisdictions.

Attach a completed copy of this form to your paper return.

Part 1 – Adjusted taxable income and minimum amount

Taxable income from line 26000 of your return (or the amount you would have entered on line 26000 if the instructions for lines 23600 and 26000 said "if negative, show in brackets")						1
Film property (1)						
Capital cost allowance (CCA) and carrying charges (2) claimed on certified film property acquired before March 1996 (usually included on lines 22100 and 23200 of your return)				2		
Net income from film property before CCA and carrying charges (if negative, enter "0") (3)			–	3		
Line 2 minus line 3 (if negative, enter "0")	67820	=		►	+	4
Rental and leasing property (1)						
CCA and carrying charges (2) claimed on rental and leasing property (included on line 12600 of your return)				5		
Net income from rental and leasing property before CCA and carrying charges (if negative, enter "0") (3)			–	6		
Line 5 minus line 6 (if negative, enter "0")	67830	=		►	+	7
Tax shelters, limited partnerships, and non-active partners						
Losses from partnerships that are tax shelters (4)				8		
Amounts deductible for properties that are tax shelters (5)			+	9		
Carrying charges (2) for acquiring an interest in a partnership of which you are a limited or non-active partner, or which owns a rental or leasing property or a film property (included on line 22100 of your return) (6)			+	10		
Add lines 8 to 10.	67840	=		►	+	11
Add lines 1, 4, 7, and 11.					=	12

(1) If you are a member of a partnership, include your share of the income and deductions for the partnership's fiscal period ending in 2025. Do **not** include any amounts that you have to include on lines 8 to 10 of this form.

(2) To determine which carrying charges should be adjusted when calculating alternative minimum tax, see paragraphs 20(1)(c) to (f) of the ITA.

(3) For film property and rental and leasing property, first add income from these investments (before CCA or carrying charges, if they apply) and net taxable capital gains, if any, from dispositions of such investments. Then subtract losses from these investments (before CCA or carrying charges, if they apply). If the result is negative, enter "0."

(4) If your interest in the partnership is in a tax shelter that the partnership holds, include on line 8 your share of the net losses of the partnership from each source (allowable capital losses, business losses, and property losses) that is more than the amount allowed under paragraph 127.52(1)(c.1) of the ITA. Generally, the amount allowed under that paragraph should correspond with the net taxable capital gains that were attributed to you by the partnership or that you have realized on the disposition of your interest in the partnership. These losses are generally reported on line 12200 of your return, except rental (line 12600) and farming losses (line 14100).

(5) Include all amounts deducted for property for which an identification number is required to be, or has been, obtained under section 237.1 of the ITA, such as carrying charges for the acquisition of the property, other than amounts to which paragraphs 127.52(1)(b) to (c.2) apply. Include amounts from Form T5004, Claim For Tax Shelter Loss or Deduction, that you claimed as an income deduction or a loss on your return.

(6) Enter on this line carrying charges for the acquisition of an interest in a partnership of which you were a limited or non-active partner, or in a partnership that owns a rental or leasing property or a film property. Include only carrying charges that are more than your share of the partnership's income.

Total of non-business income or profits tax you paid to that country or to a political subdivision of that country for the year, **minus** any part of this tax that is deductible under subsection 20(11) or deducted under subsection 20(12) of the ITA. Non-business income tax paid to a foreign country does not include tax that can reasonably be attributed to an amount that:

- any other person or partnership has received, or is entitled to receive from the foreign country
- relates to taxable capital gains from that country, and you or your spouse or common-law partner claimed a capital gains deduction for that income
- was deductible as income exempt from tax under a tax treaty between Canada and that country
- was taxable in the foreign country because you were a citizen of that country, and relates to income from a source within Canada

Note
The Canada Revenue Agency considers that any amount of tax you paid to a foreign government in excess of the amount you had to pay according to a tax treaty is a voluntary contribution and does **not** qualify as foreign taxes paid.

(13) **Business income tax paid to a foreign country** (see note below)
Total of business income or profits tax you paid to a country or a political subdivision of a country for the year, if you were a **resident of Quebec**, multiply this amount by 55%. It does not include any part of the business income tax that can be reasonably attributed to an amount that any other person or partnership has received or is entitled to receive from a country, or that was payable on income that was exempt from tax under a tax treaty between Canada and that country.

Note
The Canada Revenue Agency considers that any amount of tax you paid to a foreign government in excess of the amount you had to pay according to a tax treaty is a voluntary contribution and does **not** qualify as foreign taxes paid.
